Make Your Business Stronger, Faster and More Efficient Than Ever

The Internet has changed the way business operates. Today, the ability to access information quickly, transfer large files in an instant and conduct research online is essential to remain competitive. BellSouth® FastAccess® Business DSL helps your business do all this and more, at a fraction of the cost of other high-speed Internet solutions.

Upgrade Your Office

With FastAccess Business DSL working for you, you can upload large data files, research graphic intensive Web sites and manage business finances online at lightning fast speed. Your employees can search the Web and talk or fax on the same line at the same time.

More Than Just Speed

FastAccess Business DSL lets you do more with less. Stay online without tying up the phone, attend a meeting without leaving your desk and, with a router, link multiple computers to a single DSL connection. This eliminates the need for multiple dial-up accounts. Even more importantly, you can improve client relationships through better service and communications. Add to all this our award-winning customer service, and FastAccess Business DSL is the one tool no business should be without.

The Smartest Investment You Can Make

FastAccess Business DSL offers you four versatile Internet options for domain name and IP addressing to help your business be more productive and efficient than ever. For more information, contact your BellSouth Account Representative.

A closer look at the BellSouth FastAccess Business DSL portfolio

BellSouth FastAccess Business

High-speed DSL for graphic-intensive Web pages and downloading large files in seconds.

- Up to 1.5Mbps downstream x 256Kbps upstream
- Up to 25 times faster than a 56Kbps modem
- No waiting for dial-up access, just click and go
- Talk and fax while using the Internet at the same time, on the same phone line
- Dynamic or single Static IP included at no additional cost with options to upgrade.

BellSouth FastAccess Business DSL Plus

Fastest most cost effective, best effort speed for businesses with multiple users.

- Up to 3.0Mbps downstream x 384Kbps upstream
- Up to 50 times faster than a 56Kbps modem
- Enables multiple users to share increased bandwidth
- Dynamic, single or 5 Static IP addresses included at no additional cost with options to upgrade
- FastAccess Business DSL product of choice

BellSouth FastAccess Business Speed 384

For applications that require consistent, equal upload and download speeds, such as desktop video conferencing, distance learning and interactive audio/video.

- 384Kbps downstream x 384Kbps upstream
- 1 or 5 Static IP addresses included at no additional cost with options to upgrade
- Domain Name Service (DNS)
- Service level agreement included

BellSouth FastAccess Business Speed 768

Transmitting at speeds of at least 768Kbps downstream x 512Kbps upstream for faster uploads of image/data and interactive files.

- Faster upload speed ideal for supporting applications like basic hosting of FTP, e-mail and e-commerce Web sites
- 1 or 5 Static IP addresses included at no additional cost with options to upgrade
- Domain Name Service (DNS)
- Service level agreements included

All Services Include:

- Options for Static IP addresses in block sizes of 1, 5, 13, 29 and 61
- Professional and self-installation options
- Fifteen e-mail addresses per account (additional e-mail addresses available)
- 10MB of space for a Web page
- Business Technical Support 7 days a week
- BellSouth® MailGuard to protect your e-mail from spam
